REF: 9-1-1 Selective Routing between Woodford and Marshall Counties

Dear Mr. Zilm,

Our firm has been retained by contract by the Woodford County Emergency Telephone System Board to design and implement an updated 9-1-1 plan for Woodford County.

Woodford County, under this updated plan will be able to selectively route 9-1-1 calls to wherever they wish to have 9-1-1 calls received. Along the borders of Woodford County there are situations existing today where an adjacent neighboring County receives 9-1-1 calls originating within Woodford County. Marshall County currently receives and either dispatches, or call forwards, 9-1-1 calls received from Woodford County. There also exist a couple of areas where Woodford County receives calls from Marshall County.

I am enclosing a copy of a letter received from Woodford County that describes their final desire for their new plan. I, and Verizon, the network and selective routing provider for Woodford County, are requesting your confirmation of the Woodford County plan as submitted in the enclosed letter in writing.

Please review the Woodford County letter enclosed and initial the highlighted areas, as they are the ones that affect both Woodford and Marshall Counties. Then please reply by returning a letter showing your approval of the Woodford County proposed plan as discussed here. This information will be presented to the Illinois Commerce Commission during the process of obtaining approval from the ICC. I believe that the Marshall County plan on file with the Illinois Commerce Commission already reflects your preferred selective routing desires so possibly no changes to your plan will be necessary with the I.C.C.

Thank you for your cooperation in this matter. I look forward to your response.

Sincerely,

Steve Hullcranz

Dear Mr. Hullcranz,

In reviewing the Woodford County letter on selective routing the
Marshall County ETSB has given me the go ahead to approve the
Woodford County proposal.
